Disable Delivery On

No day

Sunday

Monday

Tuesday

Wednesday

Thursday

Friday

Saturday

[STORE VIEW]

▲ If you choose a week day (e.g. Sunday) together with "No Day" option in this field, delivery will be available on this day (e.g. Sunday).

Maximal Delivery Interval (days)

30

Minimal Delivery Interval (days)

1

[STORE VIEW]

▲ Please note that "0" doesn't impact on neither Same Day delivery time conditions nor Next Day conditions while "1" makes customers unable to select the date an order is being made on.

Include Only Business Days in the Delivery Interval

Yes

[STORE VIEW]

▲ For example, if minimal delivery interval is "3" days, Sat and Sun are non-delivery days, an order is going to be made on Friday and this option is set to "Yes" then the earliest delivery day would be Wed. With the option set to "No" the earliest day would be Mon.

Disable Same Day Delivery After

1 : 0 : 0

[STORE VIEW]

▲ Ignored when "Minimal Delivery Interval (days)" equals or more than "1".

Disable Next Day Delivery After

1 : 0 : 0

[STORE VIEW]

You can enable/disable the extension's functionality.

Disable delivery on selected week days. "No day" will make delivery available on all days.

This is a minimum time span, after which delivery becomes available (starting with the day the order is placed).

2. General settings

Include Only Business Days in the Delivery Interval [STORE VIEW]

▲ For example, if minimal delivery interval is "3" days, Sat and Sun are non-delivery days, an order is going to made on Friday and this option is set to "Yes" than the earliest delivery day would be Wed. With the option set to "No" the earliest day would be Mon.

Disable Same Day Delivery After : : [STORE VIEW]

▲ Ignored when "Minimal Delivery Interval (days)" equals or more than "1".

Disable Next Day Delivery After : : [STORE VIEW]

▲ Ignored when "Minimal Delivery Interval (days)" equals or more than "2".

Date Format

Show Comment Field

Enable Delivery Time Selection [STORE VIEW]

▲ Adds a drop-down menu with a range of hours available for delivery and also a drop-down which lists minutes. The range of hours can be adjusted with help of "Available Delivery from, hours" and "Available Delivery to, hours" options.

Available Delivery from, hours

▲ Ignored when "Enable Delivery Time Selection" is turned off ("No").

Available Delivery to, hours [STORE VIEW]

▲ Ignored when "Enable Delivery Time Selection" is turned off ("No").

Open the calendar popup once a user clicks the date field. [STORE VIEW]

-----Brushes

Allow customers to specify their preferred delivery time (a dropdown with hours and minutes will appear on the front end).

Limit available delivery time customer can select. These settings are ignored when delivery time selection is disabled (above).

You can assign Delivery Date Plus functionality to specific categories only.

3. Blocking delivery at holidays

Click "Add Holiday" to add a one-time or a recurring holiday.

How to translate this extension

To be able to translate extension phrases please refer to the file located at
\app\locale\YOUR_LOCALE\AdjustWare_Deliverydate.csv

Please note that each phrase is duplicated. You need to keep the first phrase intact.

Find the "duplicated" phrase you need to translate and modify it. Save the changes. Also, please make sure that the original structure of delimiters is preserved because, depending on the software you use, it may sometimes get altered.

After saving the file, remember to clear Magento cache =)
